This twelve-month manual brings the serious student of consciousness to an ongoing awareness of unity. Dr. Regardie revised this edition (originally published as Twelve Steps to Spiritual Enlightenment) to progress from the physical disciplines of body awareness, relaxation, and rhythmic breathing, through concentration, developing will, mantra practice, to the ultimate awareness that All is God. This book examines user and community co-production of public services and

outcomes, currently one of the most discussed topics in the field of public management and policy. It considers co-production in a wide range of public services, with particular emphasis on health, social care and community safety, illustrated through international case studies in many of the chapters. This book draws on both quantitative and qualitative empirical research studies on co-production, and on the Governance International database of more than 70 international co-production case studies, most of which have been republished by the OECD. Academically rigorous and systematically evidence-based, the book incorporates many insights which have arisen from the extensive range of research projects and executive training programmes in co-production undertaken by the author. Written in a style which is easy and enjoyable to read, the book gives readers, both academics and practitioners, the opportunity to develop a creative understanding of the essence and implications of co-production. A stunningly beautiful book that teaches you how to produce loose and expressive paintings, filled with colour and light. Worked-out solution to all in-chapter problems, all odd-numbered problems from the end of the chapter, along with self-tests and a chapter-by-chapter outline of text coverage. The last thing he needed was a wife...three months to get married. It's every bachelor's nightmare, especially when there's millions at stake. Thanks to his aunt's kooky will, that's exactly where Tristan McFarland finds himself: get a wife or lose it all. At least he only has to stay married for a year. Small town girl, Claire Campbell is struggling to make it in big city Dallas. So when Tristan proposes what choice does she have? She has no place to live and no more money put aside. As Tristan's wife, she'd have a year to get on her feet. A year and one million dollars! But when Tristan's brother, Devin, returns home with his own wife in tow, the stakes climb even higher. Now Tristan has to deal with his wayward sibling, Devin's Brazilian bride, in addition to his own wife and his aunt's pampered pooch. To make matters worse, he might just be falling in love with Claire. All

in the name getting what is rightfully his. The guy who said All You Need Is Love surely didn't have millions on the line. Railway Engineering has been specially designed for undergraduate students of civil engineering. By the fifteenth century Europe was a driving world force, but the origins of its success have until now remained obscured in prehistory. In this book, distinguished archaeologist Barry Cunliffe views Europe not in terms of states and shifting political land boundaries but as a geographical niche particularly favored in facing many seas. These seas, and Europe's great transpeninsular rivers, ensured a rich diversity of natural resources while also encouraging the dynamic interaction of peoples across networks of communication and exchange. The development of these early Europeans is rooted in complex interplays, shifting balances, and geographic and demographic fluidity. Learn the nuts and bolts of SharePoint 2010 the fun and easy way Microsoft SharePoint, the powerful collaboration tool, sometimes blurs the line between technical and non-technical users. Whether you're an administrator who needs to install and configure SharePoint or a non-techie who's been charged with managing content on a SharePoint portal, this book will make your job easier. You'll find the nuts-and-bolts information that enables you to

install and configure a SharePoint portal, plus specific solutions for SharePoint issues and the knowledge you need to design, populate, and maintain portal areas. SharePoint is Microsoft's complex but powerful tool for enabling collaboration through a portal site. Information Security: Contemporary Cases addresses fundamental information security concepts in realistic scenarios. Through a series of substantive cases, different aspects of information security are addressed by real organizations. The organizations include Kraft Foods, Advo, IBM, SRA, Aetna, the FBI, and the Yale New Haven Center for Emergency Preparedness and Disaster Response. Case topics include data protection, integrating IT and physical security, contingency planning, disaster recovery, network security, hardware design, encryption, standards compliance, tracking intruders, and training and awareness programs. This casebook will enable students to develop the practical understanding needed for today's information security and information assurance profession. This book focuses on the use of molecular tools to study small populations of rare and endangered mammals, and presents case studies that apply an evolutionary framework to address innovative questions in the emerging field of mammalian

conservation genomics using a highly diverse set of novel molecular tools. Novel and more precise molecular technologies now allow experts in the field of mammalogy to interpret data in a more contextual and empirical fashion and to better describe the evolutionary and ecological processes that are responsible for the patterns they observe. The book also demonstrates how recent advances in genetic/genomic technologies have been applied to assess the impact of environmental/anthropogenic changes on the health of small populations of mammals. It examines a range of issues in the field of mammalian conservation genomics, such as the role that the genetic diversity of the immune system plays in disease protection and local adaptation; the use of noninvasive techniques and genomic banks as a resource for monitoring and restoring populations; the structuring of population by physical barriers; and genetic diversity. Further, by integrating research from a variety of areas - including population genetics, molecular ecology, systematics, and evolutionary and conservation biology - it enables readers to gain a deeper understanding of the conservation biology of mammals that are at increasing risk of extinction at local, regional and global scales. As such, it offers a unique resource for a broad readership interested in the conservation biology of mammals and conservation management strategies to better preserve biodiversity. The national Symposium of the Division of Macromolecular Chemistry of the GDCh (Gesellschaft Deutscher Chemiker) in March 2000 was held in Merseburg with a topic of Tailormade Polymers. The scientific program was divided in two parts: contemporary activities in polymer synthesis and the tailoring of polymer properties by suitable modification steps. An excellent insight into contemporary activities in polymer synthesis, modification and characterization was given. A selection of the contributions is presented

in this volume. This little book is especially concerned with those portions of "advanced calculus" in which the subtlety of the concepts and methods makes rigor difficult to attain at an elementary level. The approach taken here uses elementary versions of modern methods found in sophisticated mathematics. The formal prerequisites include only a term of linear algebra, a nodding acquaintance with the notation of set theory, and a respectable first-year calculus course (one which at least mentions the least upper bound (sup) and greatest lower bound (inf) of a set of real numbers). Beyond this a certain (perhaps latent) rapport with abstract mathematics will be found almost essential. In To Live Is Christ, best-selling author Beth Moore travels on a spiritual odyssey through the life of one of Christianity's most fervent journeymen, the apostle Paul, tracing his story from childhood to martyrdom. Proclaiming his faith as a benchmark in New Testament Scripture, Beth writes, "I have accepted many of Paul's words as a personal challenge. 'I want to know Christ' has become my plea. 'To live is Christ and to die is gain' has become my hope. And to borrow his words once more, 'Not that I have already obtained all this . . . but I press on.'" Paul's undying passion for Christ continues to inspire and challenge those with a deep spiritual hunger for the things of God. Readers will be greatly refreshed by the obvious mercy of God that causes those who have failed

him to repent and serve him wholeheartedly and effectively.
