These three full length practice exams (100 questions each) were originally developed in conjunction with GreenStep's in-person and online LEED Exam Training workshops. Our exams have proven to be effective tools for over 5,000 GreenStep participants. We've created stand alone versions of our practice exams in response to the many requests we receive from LEED Green Associate candidates who are unable to attend one of our workshops, all searching for the practice exam that will best prepare them to pass the LEED exam. GreenStep's practice exams were developed with the mindset

that QUALITY is much more important than quantity when preparing for the LEED exam. In the development of these practice exams, our team has scoured every possible resource from which potential exam questions are developed, taken & passed various versions of the LEED exam multiple times, and incorporated valuable feedback from hundreds of past participants from over 300 LEED exam training workshops. The result is a collection of practice exams that very accurately reflect the content and style of questions you will see on the LEED GA exam. The feedback we've received from thousands of participants who have passed the LEED Green Associate exam on their first try tell us that our approach works. This 850 questions and answers LEED Green Associate V4 Practice Exam will surely help you achieve that! This is NOT the actual questions and answers of the LEED Green Associate V4 exam. These are just an example, but when you use this practice book and you take the actual exam, you'll remember that you have encountered an almost similar question in our practice exam. JUST buying and reading this book won't guarantee you'll achieve that high score or even pass the exam, you also need to understand it, remember the correct answers and repeat taking the practice exam until you get 100%. If you do that, passing and receiving 193/200 would be a piece of cake! The author of this book is an independent practice exam provider not associated/affiliated with the certification organization mentioned throughout this book. The

Certification names mentioned in this book is their trademarks. We only mention these certification names to describe the relevant exam. **PASS THE LEED GREEN ASSOCIATE EXAM WITH FLYING COLORS!** The LEED Green Associate V4 Exam Complete Study Guide aims to provide deep insight into the principles of green building; and helps the reader to learn, rather than to memorize the essential information for the exam. Thus, this approach equips candidates to successfully pass the LEED Green Associate exam with flying colors in order to actively apply green building and LEED principles in real life. This book is the only resource a candidate needs, in order to successfully pass the exam. As LEED v4 is quite different in comparison to the former versions, the book was entirely re-written; thus, it was not updated from a previous edition. All of the chapters contain guidance on the aspects that require extensive attention, while the book points out the finer details to focus on for the exam purposes. It does not matter how much time passes after taking the exam, as learning the real reasons behind the green building and LEED principles through observation will help to consolidate this information concisely. Even though the LEED Green Associate exams are sometimes referred to as conceptual exams, in reality the exam goes well beyond that. Without diving into the LEED prerequisites and credits, a candidate cannot ever guarantee passing the test; as a result, the book covers the core concepts of each LEED credit category, and then evaluates the LEED prerequisites and credits to demonstrate how those green building concepts turn into real projects with LEED requirements. The book is also recommended for students, professionals, and anyone who has not chosen to take an LEED professional exam, but nonetheless retains a strong interest in LEED and green buildings. Proven strategies to pass the LEED® Green Associate exam Here is the ideal study guide for understanding and preparing for the LEED® Green Associate exam. Written by an expert who is a LEED consultant and partner at Green Education Services—a premier LEED exam preparation provider—Guide to the LEED® Green Associate Exam engages readers by breaking down difficult concepts in sustainable design and engineering in a clearly organized, straightforward manner that helps streamline the learning process. Covering basic knowledge of green design, construction, and operations for professionals who want to demonstrate green building expertise in nontechnical fields of practice, this book is the ultimate companion for achieving successful results on the LEED Green Associate exam. **LEED v4 GREEN ASSOCIATE MOCK EXAMS** LEED Green Associate Exam Practice Questions are the simplest way to prepare for the LEED test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our LEED Green Associate Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our practice questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or

that you needed more help to understand. Pass the LEED AP O+M Exam, Get Your Building LEED Certified, Fight Global Warming, and Save Money! What others are saying about LEED AP O+M Mock Exam ... "These are TOUGH sample tests. You need this book!" "I used this book as a review in the day or two before my exam. The questions in this book could very well be found on the exam, but most actual exam questions will not be as complex as they are made here. Most of these questions on these mock exams have a twist or trick and many can only be answered if you know the materials backwards and forward. This makes for GREAT exam preparation because it makes you acutely aware of the types of tricks and the level of detail you MIGHT see on the exam..." – G. Patton "I highly recommend this book! "The book was extremely helpful for me passing the exam. The questions really challenged me to dig deeper into the details of each category. I felt this was one of several tools to help me be prepared for the exam. I highly recommend this book." – Edwin F Sierra "Such a great tool! "I passed the exam at the first attempt. These mock exams helped me to learn how to tackle the problems and which areas I should focus on! I worked with another book of the author also. It took 2-3 weeks for my preparation." – Chai Pass the LEED Green Associate Exam, Get Your Building LEED Certified, Fight Global Warming, and Save Money!
