But Hiccup's dad wants to steal the prized How to Train Your Dragon book, and prove that his Hooligans are just as good as the Bog Burglars - except Hiccup's dragon Toothless has EATEN it! So when Camicazi suggests stealing a copy from the grim Meathead Public Library, it seems like a good idea. BUT IT ISN'T! The library is guarded by the Horrible Hairy Scary the Librarian, four hundred Meathead Warrior Guards AND their Driller-Dragons . . . Will Hiccup survive - or is he DOOMED on his own birthday? ALSO INCLUDES A DRAGONESE DICTIONARY! How to Train Your Dragon is now a major

DreamWorks franchise starring Gerard Butler, Cate Blanchett and Jonah Hill and the TV series, *Riders of Berk*, can be seen on CBeebies and Cartoon Network. This book addresses gaps in our understanding of processes that underpin the making and circulation of children's screen contents across the Arab region and Europe. Taking account of recent disruptive shifts in geopolitics that call for new thinking about how children's media policy and production should proceed after large-scale forced migration in both regions, the book asks to what extent children in Europe and the Arab World are engaging with the same content. Who is funding new content and who is making it, according to whose criteria? Whose voices are loudest when it comes to pressures for regulation of children's screen content, and what exactly do they want? The answers to these questions matter for anyone seeking insights into diverse cross-cultural collaborations and content innovations that are shaping new investment and production relationships. Since the time when interactive television emerged as a medium for the home environment, it has been permanently evolving. Changing requirements and user behavior, e.g., the demand for being mobile and have access to information and entertainment anywhere and anytime, are challenging interactive TV. New kinds of interactive services have to be conceived for the increasing mobile, ubiquitous requirements of the different user groups. In these changing environments, a better understanding of emerging contexts and their implications is essential. This gave birth to the idea for the theme of the EuroITV 2008 Conference: "Changing Television Environments." EuroITV 2008, the 6th edition of the - ropean Conference on Interactive Television, was organized and hosted by the HCI and Usability Unit, ICT&S Center, University of Salzburg, Austria. The EuroITV Conference Series started at Brighton University in 2003 and 2004. It was followed by Aalborg University in 2005, Athens University of Economics and Business in 2006 and by CWI (Centrum Voor Wiskunde en Informatica) in Amsterdam 2007. We would like to thank all former Chairs for making this great conference series happen and for providing us with the opportunity to host EuroITV 2008. You don't need to be Sherlock Holmes to solve the

mysteries of London; NFT has all the answers! A new idea can become an expensive flop for TV executives. So from the earliest days of television, the concept of a pilot episode seemed like a good idea. Trying out new actors; new situations and new concepts before making a series was good economical sense. It was also tax deductible. Sometimes these pilots were shown on television; sometimes they were so awful they were hidden from sight in archives; and sometimes they were excellent one-offs, but a series seemed elusive and never materialised. Chris Perry has always been fascinated by the pilot episode. So many pilots are made annually, but never seen by audiences. Only a handful appear on screen. It's a hidden world of comedy, variety, drama and factual programming. This volume attempts to lift the lid on the world of the TV pilot by revealing the many transmitted and untransmitted episodes made through the decades. With details on everything from Big Ben to Brick Lane, this is the only guide a native or traveler needs. The Classic British Telefantasy Guide is derived from the second edition of The Guinness Book of Classic British TV with various corrections and a revised introduction to bring it up to date. It was written when the Internet barely existed, and at a time when few books had been published on the subject. This is, however, by no means a new or completely revised version of the original material - too much time has passed, and if we were to start reworking and correcting the text now, it would probably never be

finished! Instead, Classic British Telefantasy is an electronic reprint of some of the authors' earliest work, repacked for a new format and, perhaps, a new age. When it was originally published, the Discontinuity Guide was the first attempt to bring together all of the various fictional information seen in BBC TV's DOCTOR WHO, and then present it in a coherent narrative. Often copied but never matched, this is the perfect guide to the 'classic' Doctors. Fulffs, goofs, double entendres, fashion victims, technobabble, dialogue disasters: these are just some of the headings under which every story in the Doctor's first twenty-seven years of his career is analysed. Despite its humorous tone, the book has a serious purpose. Apart from drawing attention to the errors and absurdities that are among the most loveable features of DOCTOR WHO, this reference book provides a complete analysis of the story-by-story creation of the Doctor Who Universe. One sample story, Pyramids of Mars, yields the following gems: TECHNOBABBLE: a crytonic particle accelerator, a relative continuum stabiliser, and triobiphsysics. DIALOGUE TRIUMPHS: 'I'm a Time Lord... You don't understand the implications. I'm not a human being. I walk in eternity.' CONTINUITY: the doctor is about 750 years old at this point, and has apparently aged 300 years since Tomb of the Cybermen. He ages about another 300 years between this story and the seventh Doctor's Time and the Rani. An absolute must for every Doctor Who fan, this new edition of the classic reference guide has not been updated at all for the 50th anniversary. This encyclopaedia includes short definitions and explanations of current UK requirements. It includes an introduction identifying the heart of primary English and up to date information and key issues. We're living in a time of unprecedented diversity in produced media content, with more characters appearing who are Black, Asian and Minority Ethnic (BAME), Lesbian, Gay, Bisexual and Transgender (LGBT), disabled, or from other religions or classes. What's more, these characters are increasingly appearing in genre pieces, accessible to the mainstream, instead of being hidden away in so-called 'worthier' pieces, as in the past. How to Write Diverse Characters discusses issues of race, disability, sexuality and transgender people with specific reference to characterisation - not

only in movies and TV, but also novel writing. Taking in blockbuster movies such as Mad Max Fury Road, Russell T Davies' ground-breaking TV series Cucumber and the controversial novel Gone Girl, the book explores: - How character role function really works - What is the difference between stereotype and archetype? - Why 'trope' does not mean what Twitter and Tumblr think it means - How the burden of casting affects both box office and audience perception - Why diversity is not about agendas, buzzwords or being 'politically correct' - What authenticity truly means and why research is so important - Why variety is key in ensuring true diversity in characterisation Writers have to catch up. Knowing not only what makes a 'good' diverse character doesn't always cut it; they need to know what agents, publishers, producers, filmmakers and commissioners are looking for - and why. This book gives writers the tools to create three dimensional, authentic characters ... who just happen to be diverse. 'A timely guide to creating original characters and reinvigorating tired storylines' - Debbie Moon, creator and showrunner, Wolfblood (BBC) 'Lucy V. Hay nails it' - Stephen Volk, BAFTA-winning screenwriter: Ghostwatch, Afterlife, The Awakening 'Packed with practical and inspirational insights'- Karol Griffiths, development consultant and script editor, clients include ITV, BBC, Warner Brothers STAR TREK is one of the world's most popular and enduring science fiction franchises, spanning decades' worth of TV, film, comics, books and more. This book - originally published just as DEEP SPACE NINE was first being produced - analyses the rebirth and renaissance of the series in the nineteen eighties and nineties. Along with masses of factual information - plot synopses, cast and crew and, uniquely, British transmission dates - this Programme Guide casts a gently critical eye over the series' continuity (and lack of it) and lingers over the moments of humour (intentional and otherwise). In sum, this is a light-hearted, detailed and affectionate overview of the revitalised version of the classic STAR TREK. Please note that it has not been updated since its original publication.
