Supply Chain Management Feb 19 2020 Supply chain management is emerging as one of the most powerful logistics management concepts for improving performance across the entire logistics network.

Companies that have already streamlined their internal business process are now working to realise further savings by improving the external business relationships within the more and more complex, linked value-adding business processes in logistics networks. Although the benefits of SCM are well-known in industry, until now companies have only put this concept into practice in a limited way. Therefore, the newly developed integral model of collaborative performance measurement in this book will make a contribution towards easing and supporting improvements in supply chain management as well as giving specific guidelines for its implementation. Furthermore, the author provides newly developed key performance indicators that enable the measurement of the performance of co-operation across the extended enterprise in a supply chain environment. Based on case studies, the integral model, in close connection to the SCOR model, was applied and has proven its applicability in industrial practice. This book presents a rich variety of concepts and methods for industrial engineers, business managers, engineers and consultants as well as success stories in supply chain management.

Worldwide Guide to Equivalent Irons and Steels Mar 02 2021 A guide to similar irons and steels, with iron and steel alloys listed in one of 51 sections that cover eight major categories: cast iron, cast stainless steel, steel casting, alloy steel, carbon steel, high strength and structural steel, wrought stainless steel, and tool steel. Within each section, alloys are listed alphabetically by one of the names or grades commonly used in the US. After each grade, one or more UNS (Unified Numbering System) numbers is given as a designation and composition. Within each alloy listing, countries are listed alphabetically followed by individual specifications and designations. Price to members, \$122.40. Annotation copyright by Book News, Inc., Portland, OR

Office User Guide for MicroStrategy Analytics Enterprise Feb 13 2022 The MicroStrategy Office User Guide covers the instructions for using MicroStrategy Office to work with MicroStrategy reports and documents in Microsoft® Excel, PowerPoint, Word, and Outlook, to analyze, format, and distribute business data.

The NexStar Evolution and SkyPortal User's Guide Oct 21 2022 This book serves as a comprehensive guide for using a Nexstar Evolution mount with WiFi SkyPortal control, walking the reader through the process for aligning and operating the system from a tablet or smartphone. The next generation Go-To mount from Celestron, this is compatible not only with the Nextstar Evolution but also with older mounts. It is the ideal resource for anyone who owns, or is thinking of owning, a Nexstar Evolution telescope, or adapting their existing Celestron mount. Pros and cons of the system are thoroughly covered with a critical depth that addresses any possible question by users. Beginning with a brief history of Go-To telescopes and the genesis of this still new technology, the author covers every aspect of the newly expanding capability in observing. This includes the associated Sky Portal smartphone and tablet application, the transition from the original Nexstar GoTo system to the new SkyPortal system, the use of the Sky Portal application with its Sky Safari 4 basic software and Celestron WiFi adaptations, and discussions on the use of SkyPortal application using the Celestron adapter on older Celestron mounts. Comments and recommendations for equipment enable the reader to successfully use and appreciate the new WiFi capability without becoming overwhelmed. Extensively illustrated using actual screenshots from the program interface, this is the only guide to the Nextstar SkyPortal an observer will need.

Worldwide Guide to Equivalent Irons and Steels Mar 26 2023 More than 30,000 listings are presented in this edition with increased coverage from major steel producing countries such as China, India, and Japan.
